## About the League

The Brain-Drone Racing League (BDRL) is a 501 (c) (3) tax-exempt non-profit and drone racing governing body, which sets rules and aid organizing brain-controlled drones racing. The Brain-Drone Race is the universal sport that allows people with physical disabilities and those considered healthy to compete at the same level, because the brain is only needed. It is also the first sport to integrate virtual reality, drones, e-sport and neuro technologies.
